

Sonna Jamerson

AIG Specialist: NBPTS 3

MA Ed K-6 Comprehensive Education

4th Grade - AIG 1st Nine Weeks

REMIND APP	 4th Grade AIG @3abfkbb	A couple of parents still need to go to remind.com and use the 4 th grade link to join our class.
PERPLEXORS	Students have been solving these challenging problem-solving puzzles that use deductive reasoning skills to eliminate incorrect possibilities and find the correct answer.	
MATH ENRICHMENT GROUP	Mrs. Jamerson is seeing a math enrichment group every Friday for 60-minutes to extend the NC Standard Course of Study for these students. It's exciting to see their curiosity and love for math growing! We have focused on place value, decomposing numbers, a 3-Act Task, and division during our time together.	
LITERACY & HUMANITIES	We read a story from Jr. Great Books, "The Goldfish". The students analyzed the character's change over time through their thoughts, feelings, and actions. They also made inferences during their reading and created a fish bowl with their inferences.	
NC FORESTRY SERVICE ESSAY	I enjoyed reading the essays that were completed! It was wonderful hearing your child's stories about being in nature. Those that were submitted by the deadline were mailed in for evaluation. I appreciate your support with this extension project!
